Make a difference where it matters most

Support Derby & Burton Hospitals Charity and join the growing number of businesses making a real impact for patients, families and NHS staff across our hospitals in Derby, Derbyshire and Staffordshire.

Here's some of the ways your business could get involved:

Choose us as your annual charity partner

By making us your charity of the year, we'll work with you all year round to plan fundraisers, engage your team and show the real difference you're making together.

Take on a team fundraiser

Whether it's one of our charity events like a skydive or abseil, or something in your own workplace, we'll help you plan something fun, rewarding and impactful for your team.

Sponsor an event or project

Support one of our events or hospital projects and get your brand seen by thousands every month - online, in our hospitals and across our community.

Donate prizes, time or your expertise

From donations of raffle prizes and volunteering, to sharing your team's skills, there are so many ways to get involved and show your support.

Let's work together

Drop us a message to chat about how we can work together and explore how your business could get involved.
